Forteo® (Eli Lilly) (note this brand no longer available on PBS)	Terrosa® (Gedeon Richter)	01/10/2021

Data correct as 1 June 2022.

\* Refer to the Schedule of Pharmaceutical Benefits to identify indications for which the reference brand and biosimilar brand are available for subsidised access (all brands may not be available for all indications).

† The independent expert Pharmaceutical Benefits Advisory Committee (PBAC) recommended Herzuma® and Ogviri® be listed on the PBS as substitutable biosimilars of the Herceptin® reference brand of trastuzumab for the purposes of the Efficient Funding of Chemotherapy Program. The PBAC also recommended Riximyo® and Truxima® be listed as substitutable biosimilars of the MabThera® reference brand of rituximab on this Program. Under section 33(2) of the *National Health (Efficient Funding of Chemotherapy) Special Arrangement 2011*, chemotherapy medicines supplied under the Efficient Funding of Chemotherapy program may be substituted with a different brand of the same chemotherapy medicine. These medicines are not marked with 'a'-flags in the Schedule of Pharmaceutical Benefits.
